
a
Study phase
Trained on H-ability
b
Test phase
Trained on H-ability
c
Trained on FA-ability
d
Trained on FA-ability
Hyperplane contrast (a.u.)
Time from stimulus onset (ms)
Tested on H-ability
Tested on FA-ability
Significant contrast
Within- vs. cross-dimension difference
e
Foils
Targets
Familiarity
FA−
H+
Classification boundary
Neural dimension
